KENTUCKY AND LOUISVILLE MUTUAL INSUR-ANCE COMPANY.

WILL insure Buildings, Furniture and Merchandize against loss or damage by tire, in Town or Country.

R. II. CHITTENDEN, Agent. Office at Dr. Watson's shop, near the Bridge.

NAUTHLUS (Mutual Life) Insurance Company, No. 58, Wall Street.—After mature deliberation, the Trustees have become convinced, and the experience of old established companies fully warrant the conclusion, that the advantages of Life Insurance on the Mutual plan, may be extended and diffused with greater convenience to a large class of contributors, and with equal security to all the assured, by requiring no greater amount of the premium to be paid in cash than the company will require to meet its engagements with promptitude and lidelity.

It has accordingly been determined that in all cases where the annual premium shall amount to \$50, and 60 per cent thereof shall have been paid in cash, at approved note may be given for the remaining 40 per cent, payable twelve months after date, bearing six per centinterest. The interest to be paid annually, but the principal not to be called in unless the extencies of the company require it, giving sixty days motice, and then only by assessments pro rata to the extent that may be required to meet the engagements of the company.

It is confidently anticipated that a system, the operation of which is so fair and equitable, so well calculated to place the benefits and blessings of Life Insurance within the reach of all, and at the same time enable each contributor to share equally and fully not only in its beneficent security but also in its profits of accumulation, will meet, as it is believed to deserve, the favor and confidence of the public.

The particular advantages offered by this company, are:

1. A guarantee capital.

2. An annual participation in the profits.

3. No individual responsibility beyond the amount of premium.

4. Those who insure for a less period than life, participate equally in the annual profits of the company.

The Nautibus company confines its business exclusively to Insurance on Lives, and all Insurance appertaining to Life. It has accordingly been determined that in all cases where

MONDAY......JANUARY 4, 1847.

We are deeply pained to learn that the Hon. AL-EXANDER BARROW, United States Senator from the State of Louisiana, was, at the last accounts, lying dangerously ill in the City of Baltimore. He went to the city, we understand, as the friend of Mr. Davis, acting in the affair between Mr. D. and Mr. BAYLY. A letter received in town to-day from a gentleman in Washington, brings us the melancholy intelligence that his physicians have dispaired of his life.

LATER. SENATOR BARROW IS DEAD !- Senator B. died in Baltimore at 5 o'clock on Tuesday morning last. Messrs. Crittenden and Arthur of the Senate, and Messrs. Gentry, Foote, Bell, Crozier, and Governor Vance, of the House, the warm and devotedly attached friends of Mr. Barrow, being advised of his approaching death, hastened to Baltimore. They arrived in time to have the sad consolation of seeing him alive, to receive his friendly recognition, and to be at his bedside when his eyes closed for-

The New York papers say the signs of the times indicate a severe pressure for money, if the administration adheres to the Sub-Treasury law.

THE GOVERNMENT AND THE N. Y. BANKS .- On the 25th day of December last, the Government had about funds enough in the City of New York, putting all the odds and ends together, to pay the January instalment of interest; but, lest something might happen by which the fund would be diminished, application was made to the Bank of America to pay the interest, which it is said the bank agreed to do. Thus is this bank-hating administration, again found in the embrace of the banks.

Correction. In our report of the discussion of the joint resolution of Mr. WADE, instructing our representatives in Congress to procure an increase of pay to our brave soldiers in Mexico, Mr. GLENN is made to say " we have the same right to instruct our representatives in Congress, that our constituents have to instruct us." Mr. Glenn said " we have the same right to instruct our Schators in , Congress," &c.

Mr. WALL, announced the decease of Dr. A. H. INNIS, late Senator elect from the 29th district, and addressed the Senate in substance as follows, viz:

MR. SPEAKER: If in order, I will avail myself of the present moment, to discharge the melancholy mittee. duty which has devolved on me, of announcing to the Senate, the death of one of its members elect, Dr. A. H. Ixxis, of Harrison county, who since his mittee. election in August, to a seat in this body, has departed this life.

It is not intended on this occasion, to pronounce any further eulogy upon the life and character of Dr. I., than simply to give a brief outline of his history; for in order to insure our highest esteem for his character, it was only necessary that we should

Dr. Innis was a native of Franklin county, Ky., was educated in Transylvania, and graduated in the Medical Department of that institution. He soon after located in Harrison, and engaged in the practice of medicine in the village of Claysville. Although a young man, and a stranger, yet by his open, trank and manly course, and correct moral To Mr. H. deportment, combined with his assiduity and skill in his profession, he very soon acquired an influence red. and popularity, to which few men of his age, and under similar circumstances, have attained. The best evidence, however, of his hold upon public confidence. and of his deserved popularity, arises from the fact, that at a period of high political excitement in the country, when both parties were casting about for their strongest men. Dr. Innis was selected in the old county of Harrison, as the most available candidate of the Whig party, and his after success proved the wisdem of the choice, for he was several times elected, notwithstanding the large majority of the opposite party in that county. Dr. Innis, after serving in the House of Representatives, much to his own credit, and to the satisfaction of his constituents, retired to private life, and the practice of his profession, and so continued until within the last year, when, in conformity to the wishes of his friends, he again entered upon the political arena, and although his health had become greatly impaired, so as to disqualify him in a great degree from performing the labors of the canvass, still, he proved ccessful and was elected.

An inscrntible Providence, however, has pleased to cut him off in the midst of his usefulness, and we | red. must bow in submission. In the death of Dr. Innis, this body has lost an able, efficient and zealous mem- red. ber, the society to which he belonged, one of its chief ornaments, and his wife and orphan child have sustained a loss which I cannot command language to portray. I will, therefore, through respect to his memory, offer for the adoption of the Senate, the resolutions which I hold in my hand.

Resolved, That the Senate has heard with profound sorrow, of the death of Dr. A. H. Innis, Seator elect from the counties of Harrison and Bracken. Resolved, That in testimony of respect for the memory of the deceased, we will wear the usual badge of mourning for the space of 30 days.

Reso'ved, That the Senate do now adjourn. The resolutions were unanimously adopted. And the Senate accordingly adjourned.

Whole: Mr. SAWYER of Ohio addressed the Committee like the "Federalists" of 1812, standing out in opposition to the War and the Country. they used the precise language of the Tories of 1776,

and must have borrowed it from them. The worst sentiments of old tories and federalists were referred to, to show this odious likeness, and in this style Mr. S. went on for his hour.

Mr. GIDDINGS of Ohio had some little sparthough absent was assailed.

Mr. E. D. BAKER of Illinois, the Colonel of the Illinois Volunteers, next addressed the Committee, thanking the House at the first for the floor and the Chairman of the Committee for awarding it to him. He did not design to take any part in the controversy which had been going on between members of different political parties.

Coming then to the important subject, he said that the Army in Mexico needed more men and more money, and they needed both now, immediately-at The army was deficient in the necessary numerical force. The country they had captured covered an immense tract, and it would require large forces of men to garrison Monterey, Saltillo, Camargo, Matamoras, and other points of country which had been secured.

According to Mr. Buker, there were but 11,000 men belonging to our forces in Mexico-available men, after the places taken had been garrisoned. Mexico was better prepared to make a war now than she was when the war commenced. The Mexicans did not yet believe that we could conquer them. and during the existence of the war they had become more nationalized than they had been, and many of the Mexicans had made heroic sacrifices

to save themselves and their country. We had really done little or nothing to conquer a peace. The President had recently called out nine or ten new regiments, but they were very far from being upon the ground. At most they were but about seven thousand men. Mexico had 25,000

men, and some of them her bravest people. Six months ago we sent into the field 26 regiments. They went into the service with high hopes and eager expectations, but alas, how many of them slept upon the banks of the Rio Grande. About 2000 men of the best blood of the nation, who had never seen the enemy, found a grave upon the Rio Grande. The country has proved most sickly, and the army

had suffered most severely.

Even the young men of the service had been among the greatest sufferers. In some regiments one-seventh and one-eighth had died from the expochange of food! What those men had done they done for fame, glory, love of country. It was cold blooded cruelty to desire that these men should be called to endure another campaign, when by a prompt

There were three Whig Senators who had sent their sons to fight, and if there was any political contest in the Army it was as

Mr. Baker said that at the proper time he should ask leave himself or by others to offer a resolu-tion to supply the volunteers with clothing and deduct the amount from their pay. Such a resolution had been drawn up at his request by the Secretary of War, and it was read by Mr. Baker, who further said, that he believed that peace would be made, could easily be made, and within four months from this time, if the country desired it and within the city of Mexico itself.

The Resolutions pending were then agreed to, proposing a reference of the President's Message to the Standing Committees. The Committee now rose and reported, and the rc-

A mortgage to secure the payment of money cannot be enforced under a year and a half; thus legalizing the infraction of the contract between parties, by a tardy remedy, as hateful almost as any other violation of contract could be. The breach too is not repaired by any penalty whatever, as the law denounces nothing against the debtor for failing ring with Mr. Sawyer in behalf of Mr. Root, who, to comply with his solemn engagement; but provides procrastination and delay to the creditor, for attempting to enforce the contract. Then this fountain of justice is not opened, until common law and criminal business are disposed of, by the usage of some of our courts, and frequently, in consequence of the amount of labour to be performed under these heads, and time taken up in their performance, not an hour is left to be devoted to chancery business, and the plainest cases are continued term a ter term, until suitors and counsel are worn out in attending to try them. Laws made to give such delay in enforcing contracts, are effective in demoralizing a community, for they virtually legalize the refusal of the debtor to pay, and tempt him into the many shifts resorted to, to put off payment by continuing causes, &c. The whole system is radically wrong; is a mockery of justice, and of right. The system of repleying debts effects the same delay in a case at law. Executions issue generally at 90 days. The debtor promises the officer over the whole period, and just at its close replevies the debt for 3 months. Again the execution comes at 90 days, and the same game is played with the officers, until the expiration of the time, when some species of property is surrendered for sale, which the law requires to be sold at the Court House door; then another month is necessary to await the coming of a court. Tricks at bailling officers and creditors, are learned and resorted to, immoral in themselves, immoral in their tendencies, but all sanctioned by law, because the law opens the doors for their perpetration. The whole system is a violation of that principle, "that courts shall always be open and justice administered speedily, and

without delay." Those who advocate the two term principle say, that it saves a large amount of money to the State, sure to the climate, the want of water, and the for its effects are to lessen litigation, and to induce men to settle their controversies without going to law; a very mistaken notion as every one can testify, who has paid any attention to the operation of these and energetic war we could procure a peace before things. A man who intends to comply with his contracts, will never avail himself of any pretext to

him. If a court sat every day in the year, it would be all the same to him. He who intends to shuffle and evade, desires delay-asks the terms of court to be as far apart as possible-will avail himself of all delays-the results are in hundreds and thousands of instances. The man who is prempt to pay, or tenacious of credit, is compelled to preserve his charactrade when the contract was money, or by going into the arms of usurers and money shavers. The such a system. San Luis Potosi, Nov. 10, 1846. Senor General:-At 10 this morning, by an official communication of the Governor of Coahuila of the 8th inst., I received your letter of the 5th, apprising me of your intention, by order of your Government, of breaking the Convention agreed upon at Motnerey, on the 24th of September last, and passing on the 13th of the present month the line therein designated, by which I should receive your communication.

Believing that the terms stipulated in said Convention should be religiously observed by both par-

Laying ont of the question whether that convention was the result of necessity or of the nable views now disclosed by you, I content myself with saying, that from the spirit and decision maniested by all Mexicans, you should banish all idea of peace while a single North American in arms treads pon the terrritory of this Republic, and there remains in front of its ports the squadrons which make war upon them Nevertheless the extraordinary Congress will assemble in the capital towards the end of the present year, and this august hody will determine what it shall judge most suitable for the

The following is a list of the prisoners whom Sergeant Muriano Hernandez conducted to San Lnis Potosi, and who have been set at liberty by Gen. Santa Anna:

Charles W. Tutts, John Harrisman, Edward F Fechy, Henry P. Lyon, James Q. Reed, Elisha Pruett, Thomas Gillespie.

It is probable that there may be some slight inaccuracy in the above names. Two of the men thus saved were Texans, who it was supposed at Monterey, among their comrades, were dead.

From the Nashville (Tenn.); Banner. THE BOUNDARY .- There seems to be a good deal f difficulty in arriving at the true meaning of the dministration and its friends as to the western boundary of Texas—and to determine whether they ntend to claim the Rio Grande from its mouth to its source, or only so much as may suit their purposes and present situation. Mr. Stanton, of Tennessee who, we are inclined to believe, is destined to be the leader of his party in the House of Representatives—gave it as his opinion, in a speech made on the 10th instant, that "the President, when claiming to the Rio Grande, did not refer "to the territory from the mouth.

following the principal branch to its source," but that he might have been alluding "to the smaller branch." To an enquiry from Mr. Schenck, Mr. Stanton made this reply: "I answer the gentleman by stating that I never believed Santa Fe to be vithin the territory of Texas, although I believe that the territory between the Nueces and the Rio Grande with an unsettled boundary as the river advanced. I believe that that has belonged to Texas ever since the battle of San Jacinto. That is my answer.'

And a most obscure and unsatisfactory "answer" What does Mr. Stanton mean by "the smaller brauch" of the Rio Grande! Mr. Benton characterized this stream, in his celebrated speech on the annexation treaty, as "a grand and solitary river, almost without affluents or tributaries"-as having its source in the region of eternal snow and its outlet in the clime of eternal flowers. This description is almost literally correct. No large river on the American continent, we believe, has so few branches" or tributaries as the Rio Grande—a fact which will be apparent from the slightest examination of the Map. The only one of any importance is the Puerco, and this is probably the stream intended by Mr. Stanton-if he had any definite ahect-when he spoke of "the smaller branch." But as this river has its own name, it could have been easily designated by the Texas Congress, when defining the boundaries of their Republic, or by Mr. Polk, when endeavoring to justify the movement of

the American troops to the Rio Grande. Mr. Stanton says that he has never believed Santa Fe to be within the territory of Texas. How can he reconcile this opinion, as Mr. Schenck pertinently asked him, with that portion of the message of his leader, referring to an act of the Texan Conof his leader, referring to an act of the Texan Congress, in which it is declared that the Rio Grande is a boundary of that republic from its mouth to its source, and upon which Mr. Polk relies as the prinipal ground of his claim! Santa Fe is within this imit—at some distance from the source of the Rio Grande-and on the eastern side of that river.

As a prominent member of the party, to which our neighbor of the Union belongs, has thus expressed his opinion in reference to Santa Fe, may we not take the liberty of asking the latter what he thinks on the subject! In his paper of Thursday last, he says that he cannot comprehend "how any impartial mind can read the message of the President, and not be satisfied that Texas as annexed to the United States extended to the Rio Grande."-How much of the Rio Grande does he include! Does he claim, as Mr. Polk in his message says the Texan Congress did, from the mouth of that river to its source? Or is he disposed, like Mr. Stanton, to admit that Santa Fe is not within the limits of for sale low, by December 23, 1846-741-11 ferred to "a smaller branch," and not to the main when he was aiming to indicate his opinions upon the subject of the western boundary of Tex

Prospectus of the Cincinnati Atlas.

BY STEVENSON, LOOKER & TODD.

THE undersigned, having purchased of N. Gulford, Esq., the entire establishment, embracing the Atlas Newspaper Job Office, &c., will take charge of it on the first day of January, [54].

It is hoped the new arrangement will prove entirely satisfac-

It is hoped the new arrangement will prove entirely satisfactory to all the former pations of the Atlas.

The Editorial Department of the paper will be under the direction of THOMAS B. STEVENSON, long experienced as a political writer, and late editor of the Frankfort Commonwealth, the Whig Journal at the Capitol of Keutucky. The departments of Commerce, News, Literature, City Items, &c., will be faithfully attended to by a strong corps of Regular Assistant Editors; while also, in all departments of the paper, the editor will be aided by unmerous occasional contributors and correspondents. Regular correspondents will be employed at Columbus, Washington, and other important points; so that the paper will be made, in its entire scope, if a liberal onlay of enterprise, industry, and other means can accomplish such a result, an interesting and useful Journal, worthy of the confidence and support of Politicians, Farmers, Manufacturers, Mechanics, Merchanis, Families, and General Readers.

ites, and General Readers.

Every arrangement will be made to secure and publish the earliest News from every quarter.

The political character of the Allas will be WHIG—thorough WHIG. It will be every thing for the Whig cause, nothing for Men. It will sacribe no principle of the Whig party, no interest of the country, for any considerations of present or remote expediency. Taking it for granted that the nominee of the Whig party for the Pravidency will be worthy the support of the Whigs of the Nation, the Atlas will give to such nominee, from whatever quarter of the Union called, a firm, fervent and enthusiastic support.

of the Nation, the Atlas will give to such nonlinee, from whateverquarter of the Union called, a bim, fervent and enthusiastic support.

The Commercial Department of the Atlas will be under the direction of Mr. A. PEABODY, of the Merchants' Exchange, and will, we hope, offer peculiar claims to the patronage of business men of every practical pursuit of life.—Farmers, Traders, Merchants, Manulacturers, Mechanics, &c. &c. It will present dally reports of the Cincinnati Market—sales and prices; a weekly review of the Market; the imports and exports by river, canals, and railroad, with a weekly tabular exhibit of the same; and also all other matters connected with the commerce and trade of our city. Notices of Domestic and Foreign Markets of latest dates will regularly be given, with statistical and such other commercial information as is necessary to make the Atlas a thorough Commercial paper.

Identifying our entire interests with this great city, we hope to prove ourselves worthy of, and confidently expect to receive, a liberal share of patronage, in the way of subscriptions to the Atlas, Advertisements, all sorts of Job Work, &c. &c. All the proprietors of the Atlas being Natives of the West, we feel confident that we understand, and can in some measure promote, the vast interests of the great Mississippi Valley.

But knowing that the paper itself will be judged by its contents, we refer to it; being perfectly willing that it shall be approved or rejected according to its merits or demerits.

The Atlas is published on a Double Super-Royal sheet, of superior paper, with new Minion and Nonpaieil type, on the terms following:
